

**IN THE ABSTRACT OF THE DISCLOSURE**

Please amend the Abstract of Disclosure as follows:

A low cost printing device where a document sheet and a recording paper sheet are transferred by a single drive motor. A facsimile device (~~10~~) as a printing device with an inkjet printer section has a single drive motor (~~20~~) for producing a driving force for transferring a document sheet or a recording paper sheet. Transmission means (~~30~~) for transmitting a rotational force of drive motor (~~20~~) is switched by controlling the movement of an ink carriage (~~19~~). This enables the single drive motor (~~20~~) to alternatively transfer a document sheet or a recording paper sheet.
